Description:

Children need learning tools to help them understand basic concepts such as the letters of the alphabet. Such learning tools should be simple, easy, and have plenty of colorful images to help young minds remember the concepts introduced. This book helps introduce children to their ABCs but it also introduces some basic Pagan concepts as well. Besides having bright and colorful images of things that are represented by each letter of the alphabet, the text and pictures also introduce young children to ideas such as the eight Sabbats, the four Elements, the four quarters (or directions), male and female deities, and the pentagram. Other important learning tools are stressed as well including shapes, colors, and numbers. Letters from some different alphabets have also been added to the book to promote an acceptance of other systems of communicating through language.

The end of the book includes fun and interesting activities based on the concepts introduced throughout. With this book, young Pagans can learn and have fun.
