

[PDF] Thinking, Fast And Slow

Daniel Kahneman - pdf download free book

"An astonishingly rich book: lucid, profound, full of intellectual surprises and self-help value... [I] urge everyone to buy and read it."
—TIM BOLT, *The New York Times Book Review*

IN THE INTERNATIONAL BESTSELLER

Thinking, Fast and Slow, Daniel Kahneman, the renowned psychologist and winner of the Nobel Prize in Economics, takes us on a groundbreaking tour of the mind and explains the two systems that drive the way we think. System 1 is fast, intuitive, and emotional; System 2 is slower, more deliberative, and more logical. The impact of overconfidence on corporate strategies, the difficulties of predicting what will make us happy in the future, the profound effect of cognitive biases on everything from playing the stock market to planning our next vacation—each of these can be understood only by knowing how the two systems shape our judgments and decisions.

Engaging the reader in a lively conversation about how we think, Kahneman reveals where we can and cannot trust our intuition and how we can tap into the benefits of slow thinking. He offers practical and enlightening insights into how choices are made in both our business and our personal lives—and how we can use different techniques to guard against the mental glitches that often get us into trouble. Winner of the National Academy of Sciences Best Book Award and the Los Angeles Times Book Prize and selected by *The New York Times Book Review* as one of the ten best books of 2011, *Thinking, Fast and Slow* is destined to be a classic.

"In this absolutely amazing book, [Kahneman] shares a lifetime's worth of wisdom."
—STEVEN D. LEVITT, coauthor of *Freakonomics*

"I will never think about thinking quite the same. [*Thinking, Fast and Slow*] is a monumental achievement."
—ROGER LOWENSTEIN, Bloomberg Businessweek

"A tour de force of psychological insight."
—CHRISTOPHER F. CHABRIS, *The Wall Street Journal*

"Rich and fascinating."
—MICHAEL LEWIS, *Vanity Fair*

 DANIEL KAHNEMAN is Eugene Higgins Professor of Psychology and Professor of Psychology and Public Affairs, Emeritus, at Princeton University and Princeton's Woodrow Wilson School of Public and International Affairs. He received the 2002 Nobel Prize in Economic Sciences for his pioneering work with Amos Tversky on decision making.
